FULL STACK DEVELOPER

Kshitij Bhardwaj

Kshitijbhardwajkb28@gmail.com 9729916844 Gurugram https://kshitijkb28.github.io LinkedIn Github

Dedicated and results-oriented Full-Stack Web Developer with 3 years of hands-on experience. Possesses an entrepreneurial mindset and strong professional aptitude in the field of Computer Science. Analytical, innovative, and goal-driven, with the ability to deliver high-quality solutions and provide clients with an never before experience.

Skills

Languages	Frontend	Backend	Database	Cloud
Php, Python, Javascript, C++	Html, Css, Bootstrap, Javascipt, React	Laravel, Nodejs, FastAPI, Flask	Mysql, Mongodb, Postgres SQL	S3 Bucket

Professional Experience

Ethara ai — Gurugram
Software Engineer — Jan 2026 – Present

- Building APIs and backend systems using Python (FastAPI / Flask) for AI-powered applications.
- Contributing to LLM post-training workflows – dataset preparation, evaluation pipelines, and response quality improvement.
- Developing internal tools to support AI model evaluation and prompt optimization.
- Integrating LLM capabilities into products for intelligent automation and enhanced user experiences.
- Collaborating with cross-functional teams to improve AI system performance and reliability.

Mind2web LLP — Mohali
Software Engineer — 01/08/2023 - 31/10/2025

- Configured and deployed projects on servers, ensuring smooth setup and optimal performance.
- Enhanced platform scalability and performance by fixing critical bugs and optimizing backend code.
- Set up Linux-based servers, configured environments (Apache/Nginx, PHP, Node.js), and deployed multiple projects with proper security, monitoring, and performance optimization.

Education

Panipat institute of engineering and technology — Bachelor Of Technology • 67.4 %
Computer Science — 31/07/2019 - 27/06/2023

Hindu Vidya Peeth — 12 th • 64%
Science — 31/03/2018 - 29/03/2019

Projects

Yot Ecommerce — 15/01/2025 - 31/10/2025
Improved search, workflows, and notifications using **Meilisearch, Ragic DB, and Twilio** and product management features with secure **OAuth2 authentication**.
Created background jobs that fetch data from third-party suppliers and automatically update product information.
Implemented queries in PostgreSQL (psql) to retrieve and display all screen listing data.
https://fuse.systems

Remodely — 16/10/2024 - 31/12/2025
Built service booking & dashboard modules, and created **flow to design bathroom and interiors**.
https://remodely.com

Service Points — 01/10/2023 - 15/10/2024
Built and integrated chatbot functionalities, including custom conversational flows using prompt engineering.
Developed and enhanced real-time chat features using WebSockets and CKEditor in Node.js.
Resolved multiple front-end design and UI issues to enhance visual consistency and usability.
Developed performance charts showing 7-day page load trends by retrieving response time using automated cURL-based requests.
